

The Top 100 list highlights 100 of the fastest growing landscape companies based on 2007 end of the year revenue. This year's list is comprised of companies from 24 states and the companies listed provide a wide range of green industry services including maintenance, lawn care, design/build, irrigation, tree services, and snow removal. "The Lawn & Landscape Top 100 was created not only to recognize the size and scope of the professional landscape industry, but to spotlight the achievements of the entrepreneurs in our industry who have contributed exceptionally to the quality of residential and commercial landscapes across the country," says Cindy Code, editorial director for Lawn & Landscape magazine.

Sue Wallis, Vice President and Director of Business Development for Complete Landscaping, says "We always look forward to the publication of this list. It is exciting to see friends that we have made across the nation on this list and it is a real achievement to be among the top companies in the industry. It just goes to show that hard work and perseverance pay off."

*Lawn & Landscape magazine, with a circulation of 80,000 contractors nationwide, is the leading publication serving the dynamic professional lawn and landscape contractor market. It's published by Richfield, Ohio-based GIE Media, Inc., which also publishes GIE Media's SNOW Magazine.*
